

Users Manual

一. Package Information

- 1、Bluetooth keyboard User Mannul *1
2. Charger Cable * 1
3. Bluetooth keyboard * 1

二. Product Features:

- 1, Broadcom Bluetooth 3.0 are used, the chip model is BCM20730, it has the capability of bluetooth2.0 interface.
- 2 , Built-in special power management software , it will automaticly display the low battery capacity.
- 3, Ultra-thin design, easy to take it with you.
- 4, The unique mute design, effectively avoid disturbing others, it can work more efficiency . (Especially suitable for many people live in one room)
- 5, The silicone is waterproof, the surface can be washed with water directly , more convenient for using.
- 6, Using the industry- leading Bluetooth technology solutions , WIDCOMM BTW (Microsoft officially designated software) Bluetooth software .
- 7 , It can support computers, business phone , tablet , which improves the efficiency.
- 8 , The working environment temperature should between -20 degrees to 55 degrees and humidity 20-50%
- 9 , The built-in lithium battery design which eliminate the trouble of frequent replacement of the battery.

三. keyboard specification

- 1 ,Standard Interface: Bluetooth V3.0
- 2 , Operating distance: 10 meters
- 3 , Modulation : 2.4G Direct Sequence Frequency Hopping (FHSS)
- 4 , Transmit power : class 2 level
- 5 , Working voltage :1.9-3 .3 v
- 6, Working current : 4mA
- 7 , Standby current : 0.5mA
- 8 , Sleep current : 100uA
- 9 , Charge current : 100MA

- 10 , Standby time : 30 days
- 11 , Charging time of 2-3 hours
- 12 , Battery life : 3 years
- 13 , Non-stop working time: 100 hours
- 14 , Pressure tap for keycap : 80g
- 15 , Key life : above 200W
- 16, Battery capacity: 150mah

四. System Requirements

1, Computer operating system requirements:
Windows/98/ME/2000/Vista/WIN7 and Apple computer operating systems,
etc.

2,Mobile operating system requirements:

For Windows mobile6.0 and above systems, such as Samsung, etc.

For Android. If HTC / millet / Samsung, etc.

For Iphone Mobile / Ipad tablet, etc.

五. Operation of Bluetooth keyboard

Steps for pairing the keyboard with the computer :

Turn on the power switch of the keyboard :

1, Shown as below, move the keyboard's power switch to "ON" button,when the blue LED flashes then extinguished, reminding you that the keyboard is turned on.

2, Press on the code button,when the flashing blue light will be flashes regularly, it mean your keyboard already entered the code of the keyboard state. Shown as below

Attention: The connection light will be turned off once the wireless bluetooth keyboard be connected successfully.

(二) Establish the connection between Bluetooth keyboard and the computer

1. Plug the bluetooth adapter into your computer's USB port (if your keyboard does not have a Bluetooth adapter, pls purchase one in Electronic

Center), then the computer will automatically install the adapter driver, if you buy the adapter by yourself, you may find there is a CD-ROM drive, and you need to put this CD into your computer's CD-ROM drive, then install the adapter driver, if your computer comes with Bluetooth, then it's no need to install a Bluetooth adapter.

Attention:

The CD-ROM drive in bluetooth is the one which should be installed when collecting the keyboard and the mobilephone.

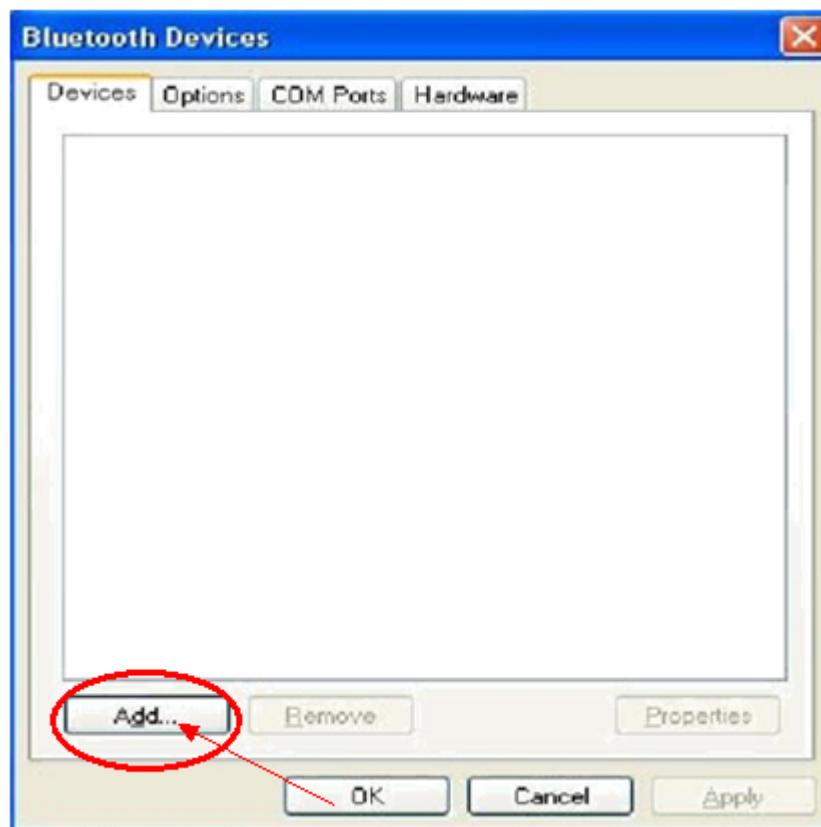

A, Code matching steps between bluetooth keyboard and computer under Windows XP

1 Make sure the computer Bluetooth function is activated, double-click the
